

Tours at high altitude

Cima Portles

DURATION
7 h

DISTANCE
8.5 km

ALTITUDE DIFFERENCE
2500 m

LEVEL OF DIFFICULTY
difficult

Description

Steep and panoramic mountain hike to a height of 3000 m

A steep tour awaits you on the west side of Mazia. The starting point is the Val di Mazia just outside the Glieshöf and close to the bridge (ca. 1750 m, a natural car park is situated here). Following the sign for Cima Portles in a short time you reach the Thanai farms following a narrow road.

Continuing to follow the signposts, you reach the higher part of the fenced ice fields (2079 m) taking a pedestrian path the crosses through a clearing that ascends vertically and to the left on a path of medium difficulty through the woods until reaching a higher area of the same enclosure.

Once arrived, follow the sign to Portles and continue (do not take a sharp right right just before the n°.16 signpost!) towards the ascending trails, in some parts on dirt roads, in other parts on grass spread with stones and small shrubs. From here continue straight to the slope levelling, through parts which are gravelly and spread with debris, up to the summit. Once arrived at this point, you can quickly and easily reach Cima Portles (3071 m). The return route retraces the same as the ascent.
