

Excursions with snow shoes

To Malga Planol

**DURATION**

3 h

DISTANCE

6.8 km

ALTITUDE DIFFERENCE

1.180 m

LEVEL OF DIFFICULTY

easy

Description

From the mountain village up to the idyllic malga

Starting at the entrance of Planol, you cross this picturesque and uncontaminated village and then follow the alpine path (signpost 6) with a slight incline through the high valley along the Puni stream as far as the valley in the direction of Malga Planol. At the maso Petersettes you cross the bridge over the stream on the left. Along the path through the grassland you constantly gain altitude crossing a wood of larch trees.

Before reaching the Malga Planol, you climb above a small valley. Following this, you have a breathtaking view over the Val Monastero, the Sesvenna group, the Ortles group and over the large wide valley of Glorenza. Once arrived at the malga, you are rewarded with a good rest and "pure pleasure". The descent retraces the same route back.
