Description

Take your bike on a sunny round tour over sticks and stones

Leaving from the Glieshof, take the Alta Via della Val Venosta following pathway no. 20, on the left side of the valley, until reaching the Mühlhof farms. Pedal towards the ruins of Castle Mazia - once the residence of the marauding knights - and continue towards Sluderno, where you will have a spectacular view over the valley and Coira Castle, the town's symbol. The itinerary continues towards the medieval town of Glorenza, Laudes and leads, in a northern direction, to Malles. You then turn right towards Malettes. From here, follow the pathway no. 64 and pedal along the dirt road as far as Piani di Malettes (1606m a.s.l.). Travel along the ancient road of Mazia to reach the village of the same name. Afterwards, pedal along the panoramic road which flanks traditional mountain inns and green fields back to the Glieshof.
