Description

Pastures as far as the eyes can see, pleasant temperatures and great snack-stops

Leaving from the train station of Malles, cross the village centre and continue towards Clusio (1075m a.s.l.), then turn left and pedal as far as the Polster farm. Carry on along the forest trail which flanks the Rio Melz, through woods and fields as far as Slingia (1725m a.s.l.). Here, pass the biathlon sports centre - where many professional athletes train - and cross over the bridge past the woods to then shortly reach the farm of Slingia. For the return journey you can choose to descend along the same route as before or alternatively travel along the main road of Slingia which runs alongside the monastery of Monte Maria, and leads toward Burgusio, and then Clusio until arriving at Malles.
